4-H Visual Arts Thursday
Week 3 Challenge

Color

Color is one of the most obvious elements of design
Color creates a mood within the piece

Color Art Challenge:
- Find a challenge sheet with instructions and three coloring sheets at
  https://www.geary.k-state.edu/4-h/virtual_visual_arts_lessons.html
- Color the first sheet using primary and secondary colors
  - Primary colors are red, yellow, and blue
  - Secondary colors are green, orange, and violet
- Color the second sheet using tertiary colors
  - Tertiary colors are the mixing of a primary with a secondary color
- Color the third sheet using different values of one color
  - Value refers to the lightness or darkness of a color
  - By adding white to a color, a tint is produced
  - By adding black to a color, a shade is produced
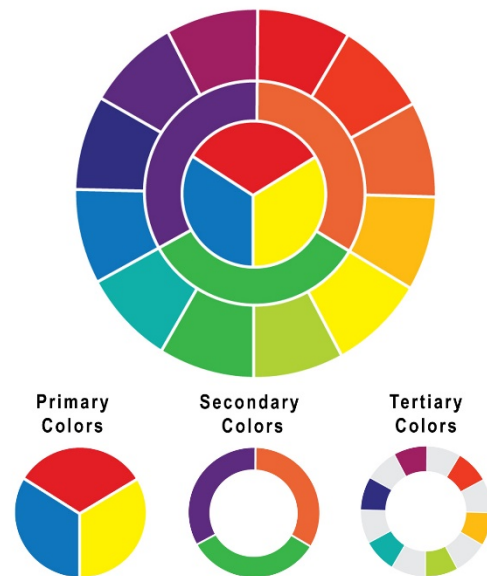

Questions to think about:
What kind of feelings do each of the primary
and secondary colors evoke or make you feel?
How have you used color in visual arts projects
in the past?
How many different colors did you use on the
coloring sheets?
How could you use your visual arts skills to
brighten someone else's day?
